Required Report - public distribution

**Date:** 9/2/2005

**GAIN Report Number:** DA5008

## Denmark

## Food and Agricultural Import Regulations and Standards

## Export Certificate Report

## 2005

**Approved by:**

Roger A. Wentzel

U.S. Embassy

**Prepared by:**

Hasse Kristensen

---

**Report Highlights:**

This report covers national Danish foreign import requirements for export certificate requirements where these are not EU harmonized.

**DISCLAIMER:** This report has been prepared by the USDA/Foreign Agricultural Service in Copenhagen, Denmark for U.S. exporters of domestic food and agricultural product. While every possible care was taken in the preparation of this report, the information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their Danish customer (importer), who is normally best equipped to research such matters with local authorities, before any goods are shipped. Final import approval of any product is subject to the importing country's rules and regulations as interpreted by border officials at the time of product entry.

## Notes for using the Guide

Denmark, as a member of the EU, conforms to all EU regulations and directives. We therefore recommend that this report is read in conjunction with the EU Certification Guide produced by the US Mission to the EU in Brussels, Belgium: Gain Report Number : E35010 <http://www.fas.usda.gov/scripts/attacherep/default.asp>

Unfortunately for exporters, the EU's rules on certification for imports are complicated and are not always harmonized across Member States. This report lists the required Export Certificates for exports to Denmark, which are not yet harmonized.

## Danish Competent Authorities, checking Export Certificates

The Veterinary and Food Administration, Ministry of Family and Consumer Affairs is responsible for the inspection of animals, meat and meat products, and animal feed. The Plant Directorate, Ministry of Food, Agriculture and Fisheries is responsible for the inspection of all non-veterinary products. Regulation 2004/882/EC sets out the standards for control of compliance with the General Food Law (2002/178/EC).

The Veterinary and Food Administration  
Moerkhoej Bygade 19, DK-2860 Soeborg

## U.S. Competent Authorities, issuing Export Certificates

The U.S. issuing agencies are identified by their acronyms. Following is a list of these and the relevant websites of each agency for further information.

### USDA / FSIS: Food Safety and Inspection Service, USDA

Export Requirements for the European Union:

[www.fsis.usda.gov/Regulations\\_&Policies/European\\_Union\\_Requirements/index.asp](http://www.fsis.usda.gov/Regulations_&Policies/European_Union_Requirements/index.asp)

### USDA / APHIS: Animal and Plant Health Inspection Service

USDA International Animal Export Regulations:

[www.aphis.usda.gov/vs/ncie/iregs/animals/ee.html](http://www.aphis.usda.gov/vs/ncie/iregs/animals/ee.html)

International Animal Product Export Regulations:

[www.aphis.usda.gov/vs/ncie/iregs/products/pr\\_ee.html](http://www.aphis.usda.gov/vs/ncie/iregs/products/pr_ee.html)

Export Services:

[www.aphis.usda.gov/ppq/pim/exports/](http://www.aphis.usda.gov/ppq/pim/exports/)

USDA/ AMS: Agricultural Marketing Service

USDA European Union Health Certification Program: [www.ams.usda.gov/dairy/eu\\_prgm.htm](http://www.ams.usda.gov/dairy/eu_prgm.htm)

### FDA: Food and Drug Administration

[www.fda.gov/cber/gdlns/exptrcert.htm#iv](http://www.fda.gov/cber/gdlns/exptrcert.htm#iv)

### USDA / FGIS: Federal Grain Inspection Service;

Grain Inspection, Packers and Stockyards Administration

[www.usda.gov/gipsa/international/intl-services.htm](http://www.usda.gov/gipsa/international/intl-services.htm)

### NOAA: National Oceanic and Atmospheric Administration

## Danish Export Certificate Requirements

In general, Denmark formulates specific import certificate requirements on an as-needed basis, where these are not EU harmonized.

For plant products, regulated by the Danish Plant Directorate, Ministry of Food, Agriculture and Fisheries, Danish import legislation only includes regulation providing for the implementation of EU regulations. It should, however, be noted that Denmark forms part of the protected zone for Rhizomania (See European and Mediterranean Plant Protection Organization (EPPO) website at [www.eppo.org](http://www.eppo.org)).

For food products, which are regulated by the Danish Veterinary and Food Administration, Ministry of Family and Consumer Affairs, the present regulations only include Danish-specific requirements for crocodile meat and seal oils.

### Certificate Matrix

Product	Title of Certificate		Attestation Required on Certificate		Purpose		Requesting Ministry
Crocodile Meat	Health and Hygiene Certificate		See details in Section II below		Food Safety		Ministry of Family and Consumers Affairs

In addition to the above requirement, imports of seal oils are also regulated (without certificate requirements). However, documentation that the seals are slaughtered at approved establishments and slaughtered hygienically is required.

### Specific Attestation Required on the Export Certificate

Certificate requirement for imports into Denmark of fresh, chilled, frozen meat of farmed crocodiles (hereunder alligators).

At the import, the meat must be accompanied by a health and hygiene certificate, issued of the competent authorities in the country of origin and signed by an official veterinarian. The certificate must contain the following information:

1. Country of origin of the animals
2. That the meat originates from animals under official veterinary control
3. That the animals have been slaughtered and treated at establishments authorized by competent authorities of the country and under the supervision of these authorities.
4. That the animals have been ante and post mortem controlled by which they have been found healthy and the meat suitable for consumption.

5. That the meat has been examined and found free of trichinas or has been frozen for securing that possible trichinas have been killed, according to Appendix IV of EC Directive 77/96 of December 21, 1976.

6. That the meat has been frozen for securing killing of possible tapeworms (*Spitometra erinacei*) at minimum 10 degrees Centigrade for 24 hours.

7. That the meat has been inspected and found free of salmonella.

Livestock meat, poultry meat and farmed game (hereunder crocodiles) can only be imported into EU if a health certificate established by the EU for humane slaughtering accompanies it.
